

TRIMPEKS' TECHNICAL SERVICE

Technical Service is very important for Trimpeks and means:

- 25 years of deep medical knowledge
- state-of-the-art service equipment and
- a highly skilled service team who is spread all over Turkey

Trimpeks' Technical Service Dept. is fully committed to keep the highest level of customer satisfaction and service at the fastest possible time.

All service operations are conducted in accordance with the legal procedures specified in ISO and TSE standards and are recorded. For maintenance and repair operations, high-level biomedical measurement and simulation devices are used. Accredited calibration institutions do annual controls of Trimpeks' measuring and testing devices and Trimpeks is fully inspected by the relevant authorities.
